It Pays To Advertise

Recently Victor Hull, manager of the local A. & P. Store has the following two classified advertisements in the columns of the Crawford County Avalanche. **READY FOR ADOPTION**—Six 8 weeks old kittens. Vic Hull, A. & P. Manager. **NEARLY NEW**—Kalamazoo coal or wood heating stove, for sale. Vic Hull, A. & P. Manager. The edition was out but two days and all six kittens had been sold and happy homes had been found. At the cost of but a few cents, Mr. Hull had taken care of two separate problems. If you wish to sell something around your home and turn it into usable cash, you can't find an easier or cheaper method than an Avalanche classified ad.

SEVENTY-FIFTH YEAR • NO. 39

GRAYLING, MICHIGAN, THURSDAY, SEPTEMBER 24, 1933

8 PAGES — PRINTED IN ONE SECTION — PRICE 7 CENTS

Hospital Drive Fund at \$171,848

The acceptance by everyone of his proportionate share of responsibility in giving three year pledges is essential to the success of the Grayling Mercy Hospital \$300,000 campaign, the Campaign Executive Committee stated today. The committee also stated that volunteer workers are needed throughout the area served by the hospital. To volunteer to serve as a campaign solicitor a person should write or phone campaign headquarters at US-27 and Ottawa Street in Grayling. This phone number is Grayling 5001. All public campaign volunteer workers are urged to attend a meeting at campaign headquarters on Friday, Sept. 25th at 8 p. m. The kick-off dinner for the Public Campaign will be held at the Michelson Memorial Church in Grayling on Monday, Oct. 5th. To date \$171,848 has been pledged. With the organization of the Roscommon Area Special Gifts Committee last Monday night at the Pioneer Hill Club further progress was made in the special gifts phase of the program. Roy DeWitt, a member of the Campaign Executive Committee, presided. Co-chairman of the Roscommon Special Gifts Committee are William Engleson and Stuart Rutledge. Special Gifts Committees are also being organized at Houghton Lake and other areas served by Mercy Hospital. It is hoped to complete the Special Gifts and Memorial Gifts phase of the campaign by the start of the Public Campaign on October 5th. The Public Campaign will be the final phase of the campaign which will end on October 21st.

The Campaign Executive Committee stated, "We have a big job ahead of us to raise about \$128,000 in the next four weeks, but we are confident it can be done. We have faith in the people of this area and know that they will not shirk responsibility if we can get enough workers and if everyone will give generously our goal can be made. Everyone should realize that this is the one and only chance we will have to get a modern, fireproof building to serve us. If we don't make our goal we may lose the government grant of about \$250,000. We need the government grant as well as about \$200,000 as a gift from the Sisters of Mercy in addition to \$300,000 to be raised by three year pledges from individuals in order to have the hospital building we all need so badly. No one in this area has to be convinced of the importance of a fireproof hospital building. The present building is a definite fire hazard. Furthermore, we feel that the local people will not let the summer residents down. They have demonstrated their faith in us by assuring us about \$125,000 of the total needed. There is also a possibility that more yet will be given by summer residents. Now, however, is the time when we, the permanent residents, must measure up to our own responsibility by making sacrificial gifts, for only in this way can lives be saved through having an adequate hospital of which we will all be proud and thankful for."

EDWARD POLLOCK FOUND DEAD IN CABIN

Third "First Aid" Class Started

With the third class of "American Red Cross" first aid students starting their training Monday night, little Crawford County got one step closer to being one of the best trained, and well prepared counties in the state. It is our goal to set an example that will be hard for any other county, of our size in population, to beat. We hope to have trained by the first of 1934, seventy-five to one hundred people in first aid, about fifty to one hundred auxiliary police, several in mass feeding, and several in fire. Entangled in bandages, and listening intently to our instructor, a very well qualified and interesting person, Mrs. Emily Smith, from Roscommon, we were well on our way to learning what to do and what not to do in time of emergency. The basic first aid course consists of twenty hours of classroom to complete, and at the end of this course one receives a certificate from the American Red Cross as a person qualified to administer first aid. Then if you wish, you can take advanced first aid, and the supplement civil defense first aid training.

Those in the present class are: Mrs. Ruth Campbell, Louise Aldrich, Anna Marie Schaefer, Barbara Macklem, Mrs. Clara Dawson, Rev. John Ensmann, Mrs. Helen Corwin, James McCee, Art Clough Sr., Mrs. Hilda Davis, Thomas R. Walsh, John H. Papendick, Eric Post, E. R. Burns, Floyd Davis, Wesley LaGrow, Lawrence Hunter and Mrs. Eric Post. There will be another class following the completion of this one, and anyone interested (and everyone should be), in taking this course, please contact, Floyd Davis, or Mrs. Mary Sorenson. There is no charge except 75c for your text books, which you keep. Also anyone interested in the auxiliary police course, please contact Floyd Davis. Let's keep this ball rolling so we can be fully prepared for any emergency that may come our way. Floyd A. Davis, Civil Defense Director

TWO PAY FINES ON DRIVING CHARGES

Barnie Sajdak of Frederic paid a fine of \$30 plus costs before Justice of the Peace Arthur Chough Tuesday morning after he had pleaded guilty to a charge of not having his car under control. He was ticketed by Sheriff John A. Papendick on September 4 when his car left the highway about two miles south of Frederic hitting and breaking off a telephone pole.

Forrest Seales of Beaver Creek paid a fine of \$50 plus costs before Justice Chough last week after pleading guilty to a charge of leaving a scene of an accident. He also was ticketed by Sheriff Papendick after the Seales car sideswiped a car driven by A. L. Nichols of Indianapolis, Ind., at the junction of US-27 and M-76 south of Grayling. Seales drove on after the two cars collided.

This is the final opportunity for hunters to sharpen up their eye for duck and pat hunting.

Kiwanis Club Notes

Football coach Arthur Allen of Grayling High was the speaker at Monday night's meeting of the Kiwanis Club of Grayling held at the Lone Pine Inn. He was introduced by Bruce Smith who was in charge of the program. Coach Allen told the story of the Grayling-Gaylord game and went over his starting lineup as to age and weight. According to the grid mentor, the average age of the Viking football player in the first 15 to 20 men is only slightly over 15 years of age. The team is young and short on experience, but Coach Allen stated they would turn into a force to be reckoned with before the season was over. He also showed the club the way in which he numbers his men in the lineup and the way plays are called. He invited the club members to attend the Grayling-Onaway game this Saturday afternoon and watch for the plays which he diagramed for them on a blackboard.

Inspect Airport For Driving Tests

Four men, all members of the National Safety Council's committee on winter driving hazards, were in Grayling Tuesday to look over the Grayling Army Air Base to see if it could be adapted for a regular three week winter driving test program. Those here were: T. J. Carmichael, Vice Chairman of the committee and an administrative engineer at the General Motors Proving Grounds, Belknap D. Jones, Secretary of Safety Winter Driving League of Chicago, W. B. Lashar, Jr. of the Chicago Institute of Chicago and Stanley T. Siegel, traffic engineer of the National Safety Council.

In the past, the Council's winter driving tests have been held at Clinton, Wisconsin on lake ice. If they should run the tests here, their own ice would be made. About thirty to forty regular employees are used to operate the tests. During the running of various winter driving tests, many manufacturers and others send observers to watch the trials and keep track of information that might prove valuable.

The committee of four who were here Tuesday will meet with the full committee in October when a decision will be reached on whether to move the test site to Grayling or not. It was understood here that the possibility of setting up a winter test area here for the U. S. Corps of Engineers was nearing a favorable report and it was expected that a public announcement might be made soon.

Departing Student Nurses Honored At Dinner

A farewell dinner was given on Wednesday night at the nurses home, by the Sisters of Mercy, honoring the student nurses who have completed their practice training at Mercy Hospital, and returned on Sunday to Cadillac to the Central Unit of the training school, to complete the last two weeks of their training. Twenty-eight guests were seated at long tables in the dining room. White linen with multi-colored napkins in crystal bowls flanked on either side by tall yellow tapers. In three tiered candelabra decorated the tables. Napkins and favors in pastel shades completed the color scheme. The students who were guests of honor were the Misses Bernadette Umor, Mildred Umor, Theresa Wood, and Mrs. Marion Jarvis. At the close of the dinner the students were each presented with gifts from the members of the hospital staff.

Graduation exercises for this class will be held on Sunday afternoon, Oct. 4, at 2 o'clock, at Mercy Hospital, Cadillac. This is the second group of students to complete the Practical Nursing Course at Grayling, sponsored by the Sisters of Mercy.

Hold Hearing On Federal Milk Marketing Order

The Michigan Milk Producers Association, which is made up of Michigan dairy farmers, have petitioned the U. S. Dept. of Agriculture to issue a Federal Milk Marketing order for northern Michigan including Crawford County. A series of public hearings on the proposed order was held in Traverse City beginning Tuesday of last week and continued until Saturday, September 19. As an interested party I attended most of the hearing sessions and feel that the public of Crawford County should be informed on the hearings.

A group of specialists from the U. S. Dept. of Agriculture from Washington, D. C. were present at the hearing as were officials of the Michigan Milk Producers Association. The hearing was presided over by a Federal hearing officer from Washington. On Tuesday and Wednesday, the hearing listened to testimony from about 50 dairy farmers of the area who were divided in their feeling as to the Federal marketing order. Thursday and Friday, testimony was taken from dairy operators in northern Michigan. Most dairy owners in the northern part of the state are members of the Northern Michigan Milk Dealers Association. The group composed of some 26 dairies are represented by the legal firm of Murrell, Calcutt and Griffin, attorneys at law, Traverse City. If evidence presented on the hearing warrants, the Federal Milk Marketing Order would be voted upon by dairy farmers in the northern counties covered by

Vikings vs. Onaway Here Saturday, 2pm

LOSE OPENER TO GAYLORD, 32 to 0

The Grayling High Vikings will open in their first home appearance against Onaway at the City Park Field here on Saturday afternoon at 2:00 p. m. The Vikings smarting under a 22 to 0 defeat in the season's first game at Gaylord last Friday night under the lights will be shooting for a victory here Saturday to even the season's standing.

Coach Arthur Allen has released his probable starting lineup for Saturday which includes five seniors and six sophomores. Onaway was defeated in their first game last Saturday by Rogers City by a 28 to 13 score. Coach Allen who watched the contest said that Onaway had a big team and looked very good even in losing.

Those who will start Saturday are: ends, Frank Ludeman and Larry Pond; tackles, Marvin Biel-ski and Dick Kennedy; guards

Jim Parkinson and Dick Dunham; center, John Jackson; backfield, Gary Parkinson, Bill Kenyon, Lloyd Failing and Larry Kolka. Despite the score at Gaylord, the Vikings totaled 111 yards in rushing against 333 for the Blue Devils. Gaylord made their total on 276 yards rushing and 67 by passing. The Blue Devils had 14 first downs to Grayling's 1 and they completed six passes. Bill Kenyon was Grayling's gaining back with 16 yards on 4 tries. Frank Ludeman made 14 yards on one attempt.

In all Coach Allen used 24 men in the game freely substituting although Gaylord kept their first string in the contest until the closing minutes. Others to get into the game besides the starters were M. Luter, G. Worden, J. LaGrow, K. Lazarowicz, L. Canfield, G. McEvers, L. Balch, G. Leslie, C. Keway, L. Kolka and O. Luckstead.

Although Gaylord was in scoring position once in the first period, a fumble recovered by Grayling ended the drive and left the frame scoreless. For Gaylord, Jerr Hinkle with passes in the second and third periods, both good for six points, the plays covering seven and 12 yards. Dick Riddle made good on both placements.

In the final quarter, Gaylord scored three times. Sam Butcher handed off to Bill Cochran, who sliced off tackle once from the one and again from the two. The final tally came as Butcher handed off to Gary Norton, who went over from the three-yard line. All three conversions were missed by Riddle.

To Hold District MUCC Meeting Here

The 14th District of the Michigan United Conservation Clubs will hold a meeting at the Grayling Sportsmens Club Building on Friday evening, September 25th.

All members of the Grayling Sportsmens Club and the Frederic Maple Forest Sportsmens Club were urged to attend the meeting.

It is my honest belief that Crawford County dairy farmers receive as high or a higher blend price than other localities where milk is selling at comparable retail prices. This is due to the fact that there are few dairy farmers in Crawford County and therefore most of their produced milk is needed to supply the local fluid milk market. Only a small measure of Crawford County production (Continued on Page 8)

Michelson Memorial Church School

Michelson Memorial Sunday School wound up the summer program last Sunday with each teacher summing up the quarter's lessons and preparing her class for the promotion exercises which will be held in the church auditorium next Sunday. All classes will meet in their regular places for the quarter's final roll-call after which each class will proceed to an assigned position in the sanctuary where, with suitable ceremony, attendance awards and promotion certificates will be presented and new teachers will be introduced. Several new teachers are being added to the staff to keep pace with the steadily increasing enrollment, and some classes which have outgrown their rooms will be divided and assigned to different quarters where the Rally Day registration is expected to surpass all previous records.

A new adult class will be organized on Rally Day, and any adults of any age interested in such a class are invited to contact any of the Sunday School personnel or simply attend on Rally Day when the group will convene in the balcony. On Thursday, October 8, the regular study class conducted by Rev. R. C. Puffer will take up the study of Basic Christian Beliefs and at the same time a new class in Church School Administration and Methods will be organized.

They would like you to keep separate newspapers and magazines. By scrap is meant iron and other kinds of metal, not tin cans. Place what you have to be collected so that the scouts will be able to see it at once.

The profit from the sale of things collected will go into the treasury of the scouts so they will have capital to work with.

Work Begun On New Addition For Free Methodist Church

This week marks the actual beginning of the construction for the new Sunday School addition on the local Free Methodist Church. On Monday the workers came and started raising the building for excavation. As soon as the basement is excavated, the walls will go in and then the addition on the super-structure will

get under way. For some time the need for a Sunday School addition has been acutely felt, and finally, with the help of many in the community and help from friends of the church throughout the eastern half of Michigan, we have been able to begin. It is the hope of the members of the church that this enlargement of the facilities will be a definite aid to the community and that many will realize their responsibility toward God and the church and avail themselves of the opportunity and the privilege of attending church in a land where they will not be molested by the Godless.

The new addition will include a fourteen by thirty-two foot addition to the super-structure with a full 32 x 36 basement. This will provide five class-rooms in the basement as well as enlargement to the sanctuary for worship services. Any help from men in the community to aid in the completion of this project before winter sets in will be greatly appreciated.

New word for
GETAWAY

"TT" DYNAFLOW!

WORLD'S ONLY CAR WITH V8

The 1953 Buick Super Riviera. Wire wheel covers, illustrated, optional at extra cost.

We'll get right to the point.

The comments we've been getting from many new Buick owners about the new Twin-Turbine Dynaflow are terrific.

And the reason is—this fully automatic transmission is, in itself, terrific.

It has a new, firm, solid "take-hold"—gives you instant getaway response.

It has new quiet—you can barely hear the acceleration build-up.

It has unique and utter simplicity of operation. You just move your Selector into Drive range, press the pedal, and go. That's all.

But the sweetest thing of all about TT Dynaflow is its smoothness.

You move from standstill to your legal speed in one progressive build-up of power delivery.

You feel a constant "carry" of forward motion, unbroken in any way—because here no gearshifting takes place, either manually or automatically.

Even your deceleration is infinitely smooth and gradual, with the cushioned control of slowing oil slowing down.

Wouldn't you like to sample this wonderful new getaway and pleasant quiet and immaculate smoothness?

We'll be glad to seat you at the wheel of a new 1953 Buick with Twin-Turbine Dynaflow—and let the thrills come where they may. Drop in soon, won't you?

Famous Central Engines Star at "Progress in Power" Show

1. NUMBER 1 ATTRACTION for visitors to the "Progress in Power" exhibit this month at New York's Grand Central Terminal is the historic *DeWitt Clinton*. The little engine, rebuilt exactly as it was in 1831, hauled the first train on the Mohawk & Hudson, first link in Central's 11,000-mile system.

2. HISTORIC "999" also stars at the show. This is the famous locomotive that, on May 10, 1893, pulled *The Empire State Express* 112½ miles an hour—the world's speed record for many years. With race horselines and 86-inch drivers, 999 marks another high light of Progress in Power on New York Central.

3. MIGHTY MODERNS on display are Central's 4,700 horsepower steam *Hudson* and streamlined diesel-electric locomotive, *Progress* from the *DeWitt Clinton* to the super-efficient power of today has helped cut rail freight charges from 8¢ per ton per mile in 1832 to an average of only 1½¢ per ton per mile now.

4. NEW EFFICIENCY continues to cut the real cost of rail freight. Shipping a carload of wheat from Chicago to New York cost the price of 127 bushels in 1940. Boy Scout News

The Scouts will check in any time after 2 p. m. on Friday, October 2nd. They may bring their own tents, but the camp will have tents for all. Bring your own bedding, towels, soap and so on.

Saturday, October 3rd, at 8 p. m. campfire and Court of Honor for all Scouts that are to be advanced. Parents and guests are invited for this impressive ceremony.

First Aid will be available at Headquarters, but each troop should bring their own First Aid.

GRANGE NOTES

MILK MARKETING

(Continued from Page One)

ed milk is used in dairy manufacture.

As all other Government agencies, a huge administrative office will be needed to enforce this order, if it is issued. Someone must pay for the office employees and office expense. Who will pay them, you ask. . . Why you and I the dairy farmer, the dairy owner and the housewife, who buys the milk. And the more employed on the administrative force, the higher will be your milk bill, for the dairy owner must deduct from the farmer for each one hundred pounds of milk produced and add a sum from the dairy profits for each one hundred pounds of milk purchased from that farmer and forward the total to the Market Administrator for use in paying his office force and expense. Besides this, we may find it necessary to enlarge our own office force in order to furnish records and fill out endless forms which are demanded. The cost in a quart of milk delivered to your doorstep involves much work and you can hardly realize the upward sweep of cost for producing a quart of milk if it must be done under a Federal Marketing Order.
